18th June 1993

Our ref: PAB/CS/33442
Your ref: PM 1522

Dear Charles,

Your ref: PM 1522 - Taiwan - Our file: 33442

Following our various telephone conversations and your fax of 15th June I now enclose a copy of the instructions sent to our Associates in Taiwan together with the notes for response and the equilibrium diagram for carbon dioxide.

You will notice that I have put in some numerical ranges in claim 19 because it was clear to me that that claim totally failed to meet the requirements of the Examiner in Taiwan. Claim 1 is the broader claim and remains unamended. We are taking some risk here but it was decided that in view of the clear distinction over the prior art which has now been argued at length, we ought not to be restricted in the scope of protection.

I believe our Associates should have all the material they need but obviously if there is anything further I will ensure that they have it in good time.

Charges are being entered in your account as usual.

Yours sincerely,

P.A. Smith
